

NEW PRODUCT

Marlow®

Extreme Series

Formula X

A new “high grip” version of **Formuline** designed to be used with the ratchet type extensions.

Formula X is made from 100% Dyneema for exceptional wear resistance, high strength and low stretch.

The construction means it will grip in the ratchet system enabling the sail to be fully tensioned for optimum performance while offering the durability and longevity we have come to expect from Formuline.

[Click here to see the rope in use](#)

This product comes with the assurance of being supplied by **Marlow Ropes** designers and producers of the original **Formuline** that has gained global recognition for its superb performance.
